Barbara,

Thanks for sending this reminder.

Main document:

I saw few comments in the main draft related to TK and I will address them. Should I download the file, make changes and send it to you or do it online. If the later one is preferred, just refresh me how to do that.

GeneTox from Appendix:

Barbara, sometime back I sent you few new human studies for your review. Did you get a chance to look at them? Are you planning to include any of them into the Appendix/Table B-57? I can update the new literature (which may not change the conclusions, but just to be inclusive. Let me know your thoughts.

Andrew,

Toxicokinetics:

I have revised the TK section after getting the input from Paul Schlosser and sent you that file sometime back. I have also updated literature up to 2015 including Yu et al 2015 publication from Swenberg's group. But the present TK section in the Appendix is the old one. I am attaching the TK revised file again here for your convenience (Toxicokinetics of inhaled and endogenous formaldehyde SV09212015_01262016.docx). Also, how far I should update the literature? Up to 2016? This includes the latest Cancer Research paper from Swenberg's group.

Let me know.

Sury

Subject: Final edits to formaldehyde sections

Hello Team,

I am following up on our previous email about editing the formaldehyde document. Has everyone looked at the document with David Bussard's comment bubbles and addressed them or otherwise edited your sections to your satisfaction? We will be readying the document for review by the ERC in early April.

I know that Glinda has completed edits to the literature search description and figure, study evaluation tables in the Appendix, the syntheses in the main document, and the dose-response section.

Tom has sent me his edits via email.

Sue is working on her edits and will send to me via email.

Does anyone else still need to look at it?

The documents are in a folder labeled *Bussard Review* in the Formaldehyde Team Group folder. The main document is titled, *Jan 12 DB cmts on FormaldehydeTRdraft12215*. For the appendix, use the document titled, *FormaldehydeAppendixDraft_01262016*.

To get there, go into Internet Explorer and click on MyWorkplace. Once it loads, click on the box with the 9 white squares in it that is located on the upper left corner of the page. You are presented with a number of choices: click on OneDrive (box with pictures of clouds). You should see one or more groups on the left side panel – formaldehyde Team should be there. Click on that and you will get to the folders and documents we have there.

Any questions, please contact me or Andrew.

Thanks, Barbara and Andrew
